DUE DILIGENCE SYSTEM OF SARA TOWARDS PLANTATION UNDER AGREEMENT WITH FARMERS

SARA has a proper diligence system while undertaking the land of farmers for raising of plantations on their land. During execution of agreement SARA Manager/Section Incharge checks all the relevant documents related to lands like Records of Rights, Tenancy and Crops (RTC), Hath Naksha, any Identity proof (Issued by the Govt. of India) of the farmers, Photos etc. Only after verification of all the documents the same will be checked by the legal expert at SARA Office. If all the Documents are correct and found ok then only agreement will be executed by the SARA with the Farmers in presence of two witnesses who known to farmer and they should be from the same village. Further Section In-charge and area supervisor will witness the agreement for final execution. (Refer copy of agreement)

Further, SARA has also developed a diligence system for routine check all the above documents in every six months/annual basis. If there is any change in the ownership of the land the same will be reported to SARA Management immediately and farmer will be called upon to submit the recent documents and accordingly the same change will be made in the agreement with due consultation of legal cell.

The practise will be followed up to the harvesting of each Plantation in all sections.

DANDELI

DIRECTOR/ASSOCIATE DIRECTOR
