Dated: 12-09-2001

SARA Due Diligence system towards Plantations

SARA has a proper diligence system while undertaking the membership of farmers to raise the plantation.

During execution of Membership and during harvesting, SARA managers/division Incharge checks all the relevant documents related to plantation like land use pattern, soil health card, geo locations, plantation activity details, Monitoring and evaluation form-containing species, spacing adopted, pre and post planting operations, pre harvesting record and post harvesting record.

The practice will be followed till the harvesting of each plantation in all divisions.

Place: Dandeli
